

Event Management

We know how important this day is to all involved. Entrust the day to our in-house company, C4 Event Management, and we promise you will not lose control and you will begin one of the most important days of your life relaxed in the knowledge that you don't have to worry about a thing - except getting your vows right!

If you wish, C4 can guide you through everything, the venue, invitations, car, menu, photographer...the list seems endless. They can also co-ordinate the wedding present list, RSVP's, transport and accommodation, to ensure your guests have stress-free day. We can have someone there on the day to act as your host, with a dedicated contact number.

Also offered is a free venue finding service.

Who are Firemagic (UK)?

We are a nationally-operating company, specialising in professional firework displays for all occasions, supplying fireworks to the general public and providing training and advice to the emergency services and councils.

We design fireworks and import them, in large quantities, directly from the manufacturer. This ensures the quality of the pieces and allows us to offer excellent value for money. All the fireworks are approved by the Health and Safety Explosives Inspectorate, who also oversee our purpose-built storage facilities.

Our firing technicians are the embodiment of all our values. They are passionate experts in their field, working in all weathers and conditions to deliver the best show for you. They are trained to provide the highest standard of safety and a stunning spectacle for you and your guests.

Firemagic Wedding Fireworks

Firemagic (UK) Limited

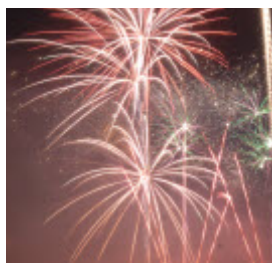

End your day on a high

Nothing will make your celebrations more memorable for you and your guests than a professionally-fired display of fireworks

We make every effort to ensure you can simply book your display and leave everything else to us. That way, you can concentrate on organising and enjoying the rest of your day.

You may be surprised by how much time we take to find out exactly what you want. For us, creating a display that suits your individual requirements is part of the fun!

What you can expect

As a minimum, you will receive a professionally-fired, six minute display incorporating arches or fans of multi-colours and mid to high level colourful aerial bursts.

If required, Firemagic (UK) can colour co-ordinate your display with the rest of your celebrations, as most of our effects are available in a variety of colours.

You may also wish to keep the display a secret from your guests, or even the bride and groom themselves.

Finishing touches

Fireworks are about expressing individuality, so why not add a personal touch to your display?

Set pieces

These come in a range of shapes, sizes and colours. They are produced by drawing out a picture using small fireworks called lances. Some examples are wedding bells, or a heart, with the initials of the bride and groom. We can create table pyrotechnics, exploding confetti balloons and other indoor effects.

Sparklers

For those who like to join in with the proceedings, we can supply sparklers in a variety of sizes and colours.

Electronic Start

Why not fulfil that dream of pushing a plunger or button to start a huge explosion of colours and effects?

You could even arrange it as a surprise for someone else, as a memorable way to start the display and to make the occasion really special.

Dancing Flames

We can create a rhythm of dancing flames up to 3 metres in height, coordinated to music if required.
